United States/Americas	+1 801 222 5204
Europe, Africa & Middle East	+44 (0) 20 8867 6305
Asia (except China/Korea)	+86 21 5869 8668

Important Notification

EDIUS 9 requires SHA-2 hash algorithm code signing to be active Grass Valley hardware driver. All versions of Windows 7, Windows 8.1 and Windows 10 already support SHA-2 code signing, but if you are running Windows 7, you will need to install Security Updates.

SHA-2 code signing requires installation of Windows 7 updates in order to use Grass Valley hardware. There are following two ways to support SHA-2 code signing:

Obtain the latest update (recommended)

Obtain the latest update from Windows Update

Install two security updates

Install TWO Security Updates on Windows 7. Download stand-alone installer files from Microsoft website then run the installer. They MUST be installed in the following order.

1. [Security Update for Windows 7 for x64-based Systems \(KB3035131\)](#)
2. [Security Update for Windows 7 for x64-based Systems \(KB3033929\)](#)

If they have not been installed, installed Grass Valley hardware may not work.

New Features of Version 9.31.4196

This update provides the following additional features:

EDIUS

- Support several audio sampling rates to import H.264 clip
- Support 8K or 4K image preview with down conversion (only Workgroup)
- Primary Color Correction supports Nikon N-Log color space
- Support to import HEVC/H.265 clip shot by FUJIFILM X-T3 camera
- Monitor control supports EIZO ColorEdge CG279X (only Workgroup)
- Support to display output format of current project in the status bar
